

Vidal Renao Lopelo

Desktop Support Staff / End User Computing L2

Basel, Switzerland | Immediately available | English C1 | German B2 | Spanish Native

Enterprise IT support professional with 7+ years of experience in desktide support, end-user computing, infrastructure, Microsoft environments, networking, and user-facing operations. Strong match for onsite EUC roles requiring SLA ownership, hardware troubleshooting, Windows device support, printer connectivity, and dependable communication with business users.

CORE PROFILE

Hands-on support engineer with a solid mix of endpoint support, systems administration, network fundamentals, and operational discipline in enterprise and Swiss business environments.
